

Remarks

Claims 3, 7, 8, 14, 23, 27 and 33 were allowed per the Notice of Allowance of July 13, 2010 based on the Board of Appeals reversal of April 23, 2010 of the Examiner's rejection of dependent claims 3, 7, 8, 14, 23, 27 and 33.

Applicants have filed this RCE to enter additional claims 40 and 41, and to submit the attached Information Disclosure Statement which includes references cited in a corresponding Japanese patent application.

New claims 40 and 41 comply with the Board of Appeals decision, Page 14, which held that the Examiner did not "cite any teaching of Becerra [that taught] "wherein the enabling interaction [of claim 6] comprises providing to the spreadsheet one or more inputs from the interface".

Based on the foregoing, allowance of the present patent application is requested.

Respectfully submitted,
